This report displays overall ESPI results for a DHB over a 12 month period. The ESPI results do not include non-electives or elective patients awaiting planned / staged procedures. ESPIs 3, 7 and 8 assess surgical specialties where patients are prioritised using nationally recognised tools - including General Surgery from 01 January 08 and Vascular and Urology from 01 July 08. So, Medical specialties are currently excluded from the ESPI results. Please contact the Ministry of Health's Electives Team if you have any queries on the ESPI definitions (details on electives website). NZHIS's Analytical Services Team can assist with providing variations of this information e.g data for a particular DHB or period (details on the NZHIS website - <http://www.nzhis.govt.nz/>).
